# Impact Report

For Fiscal Year Ended

## Message from the President & CEO .....

Despite the many challenges our organization has experienced during the COVID-19 pandemic, we remain focused on serving our community. It's been a time like no other, and our work in helping to heal our community has only just begun. I believe we will see the negative effects for years to come, especially for kids and families.

The only way to get through such a time is by working together as a team. The pressures on our team members were unprecedented but they jumped in with courage, flexibility, and big hearts to rise to the many challenges. I am proud that we continued to provide quality care in the face of a pandemic and racial unrest.

As we move forward, we will work closely with funders to stress the need for additional financial support in all our service areas, especially over the next 5-10 years. Thank you for being so supportive, for being on this journey with us, and for the trust you have placed in us.

Sincerely,

*Ashley Crane*

"All these preconceived notions I had about fostering teenagers were completely wrong. They have been the best kids, really. They have been the most helpful and caring. Really not what I imagined. It's tough; it's easy to throw in the towel ... but to know I can pick up the phone and somebody is going to help me, it makes all the difference in the world."
